

Overall Technical Commentary: Review

Team

Team 4

Technology Assumptions	Main bus with one/two trailing buses
	Main bus could operate as a drive-alone unit during off peak trailing bus has auxiliary power when part of train; also contains a people delivery door to door personal transportation service - a capsule for two; detachable power unit
Issues	
	<ul style="list-style-type: none"> - How do you access capsules - Two people capsules very practical impractical - power source is complicated - describe coupling technique
Challenges	
	<ul style="list-style-type: none"> - Define power source more clearly - social issues associated with capsules - Capacity limitations of capsules
